Appendix G - Proposed Study Plans

Appendix H - Agency Consultation

Critical Energy Infrastructure Information (CEII) **DISK: CEII_TB_PAD**
Volume 3 of 3

Design Drawings - **FERC ONLY**

PAD Critical Energy Infrastructure Information (CEII)

DISK: CEII_TB_PAD

Description	File Name
Critical Energy Infrastructure Information - FERC Only	CEII_TB_PAD.pdf

Navigation in the TB_PAD CD-ROM

When the CD-ROM is inserted in your computer, it should automatically open the file **TB_PAD_Contents.pdf**. If it doesn't, browse to this file and double-click to open it. This file serves as the main navigational starting point to all documents on the disk.

The **TB_PAD_Contents.pdf** on the CD-ROM contains links to all documents on the CD-ROM using several link methods:

- The cover page for the CD-ROM contains links to the **Contents of Disks** and **Help**.
- The **Contents of Disks** section contains details about the individual documents and is linked to the individual files on the disk.
- The **Help** section describes the structure, requirements, and navigation of the Pre-Application Document.

All individual files have been bookmarked to return to *Contents of Disks*.

Navigation in the CEII_TB_PAD CD-ROM

The only file on the CEII_TB_PAD CD-ROM is **CEII_TB_PAD_Oversized.pdf**. Please double-click on this file to open it.

Printing Documents from CD-ROM

Any document on a CD-ROM can be printed from Adobe Reader or Adobe Acrobat by choosing File>Print from the top menu.

The PDF documents on the disks can be either emailed or the CD-ROM sent to a copy center for printing with the following instructions and caveats:

1. If there are oversized 11" × 17" or 22" × 17" pages in the document, they can either be reduced to fit 8½" × 11" sheets of paper or printed on 11" × 17" or 22" × 17" sheets of paper.
2. If reports contain oversized maps, they can either be printed on 11" × 17" or 22" × 17" sheet of paper or reduced to fit an 8½" × 11" sheet.
3. Some documents have extensive color that may or may not be relevant to the interpretation of the information. Before sending the document to a copy center, preview the document to decide if the document should be printed in black and white or if color will be needed.

4. If it is necessary to print color or oversize pages then collation will be necessary to assemble the different types of output together.

Helpful Hints

For a more consistent multidocument viewing experience in Adobe Acrobat, select Edit>Preferences>General from the Edit menu, click Display from the list, and then set Default Zoom to 100%.
